

Tree Pruning for Electric Line Clearance

In line with the Electricity Safety (Electric Line Clearance) Regulations 2015, the City of Port Phillip undertakes a tree pruning program around powerlines to ensure public safety and manage the long-term health of street trees.

During May 2019, street tree pruning will occur in St Kilda. The City of Port Phillip is committed to maintaining legislated clearances around power lines for electrical safety, and to keep footpaths and roadways clear for pedestrians and motorists.

For further information please refer to Council's website www.portphillip.vic.gov.au or contact ASSIST on 03 9209 6777.
